# HEALTH

Transform the industry with technology  
to create healthier lives

Fosun Pharma continues to increase investment in innovation and R&D to promote innovative transformation, and focuses on the three major business divisions of innovative medicines business, established medicines manufacturing and supply business, and vaccines business

## RMB5.89 billion

Fosun Pharma's R&D investment in 2022

## Over 260

Pipeline projects on innovation drugs, biosimilars, generic drugs, and consistency evaluation items as of the end of 2022

### HANSIZHUANG (Serplulimab Injection)

The first self-developed biopharmaceutical innovative drug  
The world's first monoclonal antibody drug targeting PD-1 for first-line treatment of extensive-stage small cell lung cancer  
Approved for three indications in Chinese Mainland

### HANQUYOU (Trastuzumab Injection)

The first monoclonal antibody biosimilar approved in China and Europe  
The BLA for breast cancer and metastatic gastric cancer indications was accepted by the United States Food and Drug Administration (FDA)  
The China-developed biosimilar with the most marketing approvals, covering more than 40 countries and regions with a cumulative global shipment volume totaling over 3 million units

### Yi Kai Da (Axicabtagene Ciloleucel Injection)

The first CAR-T cell therapy product approved for marketing in China  
Second-line indication approved in Chinese Mainland  
Benefited more than 500 patients in China since its launch

### Artesunate for injection

The first generation, Artesun®: recommended by the World Health Organization (WHO) as the first choice for the treatment of severe malaria, which has treated more than 56 million severe malaria patients worldwide  
The second generation, Argesun®: the world's first artesunate injectable presented with a single solvent system that received WHO Prequalification (WHO PQ) and has already been registered in 16 countries

## More than 330

Da Vinci Surgical Systems installed in Chinese mainland, Hong Kong SAR and Macau SAR as of 30 June 2023

## Domestic da Vinci Xi surgical system

The "thoracic and abdominal endoscopy surgical control system" was approved by the National Medical Products Administration (NMPA)

## Introduced various devices to new markets

Soprano Titanium™ was introduced to the North American market following regulatory FDA clearance

Alma Opus was introduced to international markets outside the United States, including the Chinese market

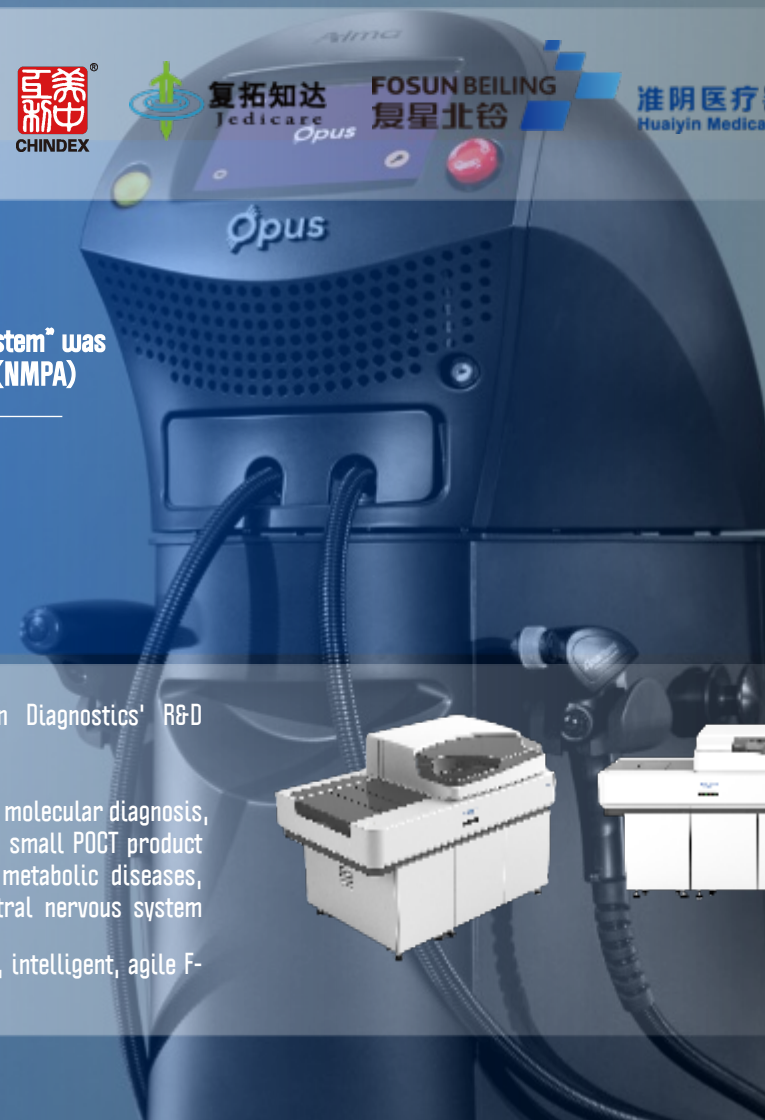

Vivo45, Vivo1-2 and Vivo3 ventilators entered the Chinese market, new technologies keeping pace with the world

Based on independent R&D and innovation-driven development, Fosun Diagnostics' R&D investment has increased year by year, from 7.6% in 2021 to 19.3% in 2023.

**FOSUN DIAGNOSTICS**  
复星诊断

It has developed a variety of products for clinical chemistry, immunoassays, molecular diagnosis, microbiology and POCT, etc. and has built a large automatic pipeline and a small POCT product group focusing on six major diseases including tumors, digestive and metabolic diseases, cardiovascular and cerebrovascular diseases, reproductive disease, central nervous system diseases and infections.

In May 2023, Fosun Diagnostics launched the sophisticated, comprehensive, intelligent, agile F-A7000 Series assembly line system.

# HEALTHCARE SERVICES

FOSUN 复星

Based on its advantageous medical resources and digital platform, Fosun provides users with closed-loop solutions throughout the treatment course and one-stop health management services that combines healthcare, medicines, health and insurance

## 6448 beds<sup>1</sup>

In member hospitals

## Operational excellence

Foshan Fosun Chancheng Hospital became the first medical institution in Foshan designated by the measure of using Hong Kong registered drugs and medical devices used in Hong Kong public hospitals in Guangdong-Hong Kong-Macao Greater Bay Area. StarKids Children's Hospital Shanghai formally commenced its business, and deeply engaged in the gynecology and pediatrics sector. Chongqing Xingrong Plastic Surgery Hospital became the first dual-base for drug and medical device clinical trials in China registered as a socially-organized medical institution.

## Digital intelligence construction

Several Fosun healthcare institutions launched "Cloud HIS" (a new generation of smart medical cloud platform) and the internet hospital SaaS.

## Insurance empowerment

Promotes the establishment of the commercial insurance system for its member medical institutions and creates customized innovative insurance payment solutions, allowing more patients with specialized needs to enjoy specialized medical services.

## THE GRAND YUYUAN

A global fashion and cultural showground showcasing the charm of oriental lifestyle aesthetics

Fosun Hive, as an advocate and practitioner of the advanced outlook on sustainable development of the industry, focuses on the needs for industrial upgrading in urban development and relies on Fosun's global industrial resources to provide diversified, multi-form and multi-level customized industrial development solutions underpinned by industrial way of thinking. In the implementation of the city-industry integration strategy, Fosun Hives takes "industry operations" and "industrial investment" as the twin-driver to fully leverage the advantages of industry funds, promote the consolidated growth of industries, empower industrial transformation and upgrading, and build asset-light operating capabilities for the entire industry chain, thereby achieving rapid upgrading of urban functions and industrial levels.

The Grand Yuyuan includes Phase I and Phase II of Yuyuan, the land plot on Fuyou Road, and the Grand Yuyuan of the Bund Finance Center, providing an excellent space to showcase oriental lifestyle aesthetics. In the future, through the promotion of traditional culture, industrial transformation and upgrading, and the organic integration of modern residential functions, the Grand Yuyuan will be built into a gathering place for oriental lifestyle aesthetics, facilitating the construction of Shanghai's international fashion capital and comprehensively enhancing the soft power of Shanghai.

# INTELLIGENT MANUFACTURING

Develop digital intelligent technology globally  
to empower industrial manufacturing

#### 20000 tons

The battery-grade lithium hydroxide project invested by Hainan Mining is expected to be put into operation in the first half of 2024

#### Bougouni lithium mine

The project delivery of the Bougouni lithium mine in Mali, Africa, acquired by Hainan Mining, has been accelerated

#### First set was launched in China

Easun Technology has developed software and hardware solutions that enabled the precise and intelligent matching of a vehicle body to break the monopoly of the market

#### Recognized as a “specialized, sophisticated, distinctive, and innovative” enterprise

Easun Technology and its subsidiaries were recognized as the second batch of “specialized, sophisticated, distinctive, and innovative” enterprise in Shanghai and the fifth batch of national specialized, sophisticated, distinctive, and innovative “little giant”, respectively

#### Robust growth in North America

Easun Technology recorded a significant increase in its overseas high-margin orders and saw robust growth in business operations in North America

# FOCUSED STRATEGY TO EMPOWER THE SUSTAINABLE GROWTH: FOUR CORE COMPETENCIES TO DRIVE CORPORATE GROWTH

# FIGHT AGAINST MALARIA IN AFRICA

FOSUN 复星

Assisting in building a “malaria-free world”

280 million +

The number of vials of artesunate for injection (60mg) that Fosun Pharma supplied to the global market since 2005, according to incomplete statistics

175 million

The number of children in high malaria transmission African countries benefited from SPAQ-CO® Disp, a malaria prevention drug for children which was prequalified by the WHO

**Second-generation artesunate for injection, Argesun®**

In June 2023, Argesun®, the second-generation artesunate for injection self-developed by Fosun Pharma became the first artesunate injectable presented with a single solvent system that received the WHO PQ, which will further enhance the accessibility of innovative antimalarial drugs and save more lives

56 million +

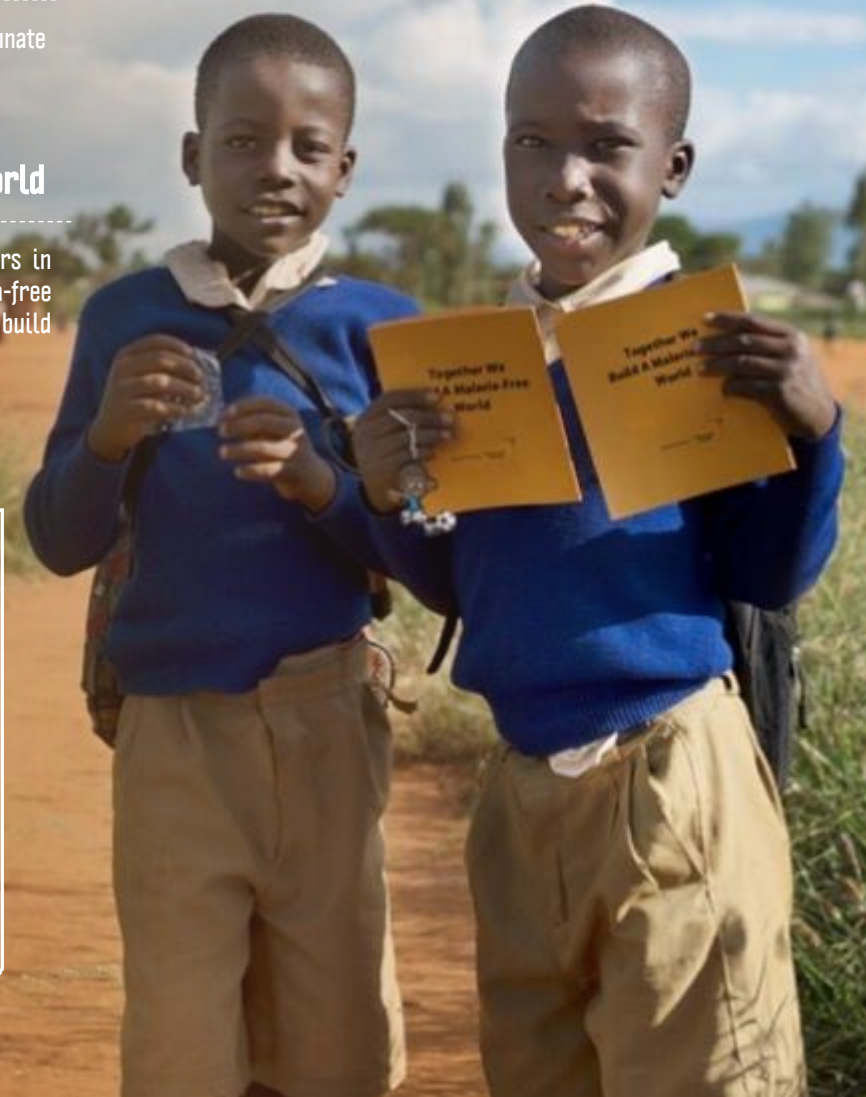

The number of patients with severe malaria that Artesun® (artesunate for injection) has saved

**Charitable activities to build a malaria-free world**

Fosun collaborated with its member companies and eco-partners in more than 15 countries and regions in a campaign for a malaria-free world through a variety of charitable activities, helping mankind build a healthy and better future.

*“We will join forces and work with anti-malaria experts as well as other parties to continue to carry out malaria education projects for the public and raise the public awareness of malaria prevention. We will also actively participate in public health improvement and make steady efforts to build a malaria-free world.”*

Guo Guangchang
